

RESEARCH SYSTEMS ADMINISTRATORS GROUP (RSAG)

A community interest group

ABOUT THE GROUP

- 76 members
- Systems administrators, network engineers, others who support research
- A community for sharing best practices and new methods for provision of computation, data storage, software development environments, and network services to researchers
- Started as a component of an NSF funded project to create a Science DMZ but has morphed over time

AREAS OF INTEREST

DATA

- File systems

SERVER ADMINISTRATION

- Configuration management
- Automation, monitoring
- Visualization and analytics

NETWORK

- Science DMZ
- Network bandwidth to computation resources

SOFTWARE

- Development environments
- Containers

MORE INFO AND TO JOIN

- Meets 3rd Wednesday of the month, 3:30-4:30, Sett afterwards
- Website: <https://sites.google.com/wisc.edu/rsag/home>
- To Join the email list (updates and meeting announcements, send an email message to join-rsag@lists.wisc.edu
- Other similar groups?
